See below for course descriptions, prerequisites and target audience recommendations.

ICS 100/700: Basic NIMS Training Workshop

An eight (8) hour course that meets the requirements of the Basic Incident Command System. This course is designed to introduce the National Incident Management System (NIMS), the Standardized Emergency Management System (SEMS), and the Incident Command System (ICS) concepts. This instructor led course is intended to meet the basic level NIMS training requirements for county personnel. This course may also be completed online through the FEMA Independent Study program. Students will receive a FEMA Emergency Management Institute (EMI) certificate of completion after successfully passing the end of course exam.

Target Audience: Emergency response personnel, all government employees, disaster service workers, Amateur Radio Emergency Service Ham Radio operators, Search and Rescue Team members, volunteers, and generally anyone who may respond or be involved in coordinating and supporting incident management activities.

Pre-requisite: None

ICS 300 - NIMS Compliant/All Risk-All Hazard Version INTERMEDIATE ICS

A twenty (20) hour Intermediate Incident Command System (ICS) course created for supervisory or management staff that would be assigned in a supervisory or leadership role in the Command or General Staff of an emergency response incident or major pre-planned event. *(State Fire Marshal certification may be offered if enough local requests are received in advance of the course.)*

This course meets NIMS/SEMS/ICS compliance and is a requirement to work in the Stanislaus Operational Area EOC.

Note: This is a 20-hour course and may be taken separately from ICS 400. If you want to take both classes, please register for each class.

Target Audience: Stanislaus County mid-level management including strike team leaders, task force leaders, unit leaders, division/group supervisors, branch directors and emergency operations center staff. Stanislaus County command and general staff, select department heads with multi-agency coordination system responsibilities, area commanders, emergency managers and emergency operations center managers.

Pre-requisite: Completion of:

- I 700 - Introduction to NIMS
- ICS 100 - Introduction to ICS
- ICS 200 - Basic ICS

ICS 400 - NIMS Compliant/All Risk-All Hazard Version ADVANCED ICS

A sixteen (16) hour Advanced Incident Command System (ICS) and Introduction to Emergency Operation Center (EOC) course created for supervisory or management staff that would be assigned in a supervisory or leadership role in the Command or General Staff of an emergency response incident or major pre-planned event. *(State Fire Marshal certification may be offered if enough local requests are received in advance of the course.)*

This course meets NIMS/SEMS/ICS compliance and is a requirement to work in the Stanislaus Operational Area EOC.

Note: This is a 16-hour course and may be taken separately from ICS 300. If you want to take both classes, please register for each class.

Target Audience: Stanislaus County mid-level management including strike team leaders, task force leaders, unit leaders, division/group supervisors, branch directors and emergency operations center staff. Stanislaus County command and general staff, select department heads with multi-agency coordination system responsibilities, area commanders, emergency managers and emergency operations center managers.

Pre-requisite: Completion of: I 700 - Introduction to NIMS
 ICS 100 - Introduction to ICS
 ICS 200 - Basic ICS
 ICS 300 - Intermediate ICS

NIMS EXECUTIVE COURSE (ICS 402)

A 2 hour course designed for local elected officials, chief executives, and administrators. This course covers roles and responsibilities of the policy group, as well as the basics of the Incident Command System, an overview of the California Standardized Emergency Management System (SEMS), and Introduction to the National Incident Management System (NIMS). The course also covers the Multi-Agency Coordination System (MACS) involving interactions with other jurisdictions/agencies to support the management or command of emergency incidents or major pre-planned events.

This specially designed course for Stanislaus County public/elected officials meets the requirements of IS700/Introduction to NIMS, ICS100/Introduction to ICS, and ICS402/Executive Course.

Target Audience: City Councils, Boards of Supervisors, Boards of Directors, Chief Executive Officers, Chief Administrative Officers, Department Directors, etc.

Pre-requisite: None.

SEMS / NIMS Combined (G606)

An 8 hour course combines the following courses:

- ICS 100 – Introduction to Incident Command System
- Standardized Emergency Management System (SEMS) Introduction
- IS 700 – National Incident Management System (NIMS), An Introduction
- IS 701.a – NIMS Multiagency Coordination System (MACS) Course
- IS 706 – NIMS Intrastate Mutual Aid, An Introduction
- IS 800 – National Response Framework, An Introduction

This course combines several courses to meet basic level NIMS compliance for emergency management and response personnel.

Target Audience: Eligible participants include emergency management and response personnel who currently or potentially work in an EOC at the state, local, tribal or DoD installation level. Disciplines include, but are not limited to: Law Enforcement, Emergency Medical Services, Emergency Management, Fire Service, Governmental Administrative, Public Safety Communications, Healthcare, Public Health, Hazardous Materials, Public Works, and Non-Governmental Organizations.

Pre-requisite: None.

EOC Management and Operations (G775)

A 16 hour course focuses on EOC Management and Operations. Content includes Multiagency Coordination, EOC design, how to staff, activate and deactivate an EOC.

This course along with ICS/EOC Interface Workshop (G191) is a cornerstone for the State of California, Office of Emergency Services, and Emergency Operations Center (EOC) credentialing program. This course meets one of the elective requirements for the CalOES/CSTI Emergency Management Specialists Certificate.

Target Audience: Eligible participants include emergency management and response personnel who currently or potentially work in an EOC at the state, local, tribal or DoD installation level. Disciplines include, but are not limited to: Law Enforcement, Emergency Medical Services, Emergency Management, Fire Service, Governmental Administrative, Public Safety Communications, Healthcare, Public Health, Hazardous Materials, Public Works, and Non-Governmental Organizations.

Pre-requisite: None.

Incident Command Post / EOC Interface (G191)

An 8 hour course provides participants with an understanding of ICS/EOC interface. Content includes an overview of ICS and MACS, and a practical exercise to discuss, apply, and validate workshop concepts and ideas for effective ICS and EOC interface.

Target Audience: Eligible participants include emergency management and response personnel who currently or potentially work in an EOC at the state, local, tribal or DoD installation level. Disciplines include, but are not limited to: Law Enforcement, Emergency Medical Services, Emergency Management, Fire Service, Governmental Administrative, Public Safety Communications, Healthcare, Public Health, Hazardous Materials, Public Works, and Non-Governmental Organizations.

Pre-requisite: None.

Rapid Assessment Workshop (G557)

This course focuses on plans and procedures for responding to the initial 4 hours of a disaster. Content includes pre-event planning, intelligence gathering and situational awareness distribution.

A good rapid needs assessment within the Emergency Operations Center (EOC) and Dept. Operations Center (DOC) will allow community leaders to prioritize response actions to have the greatest lifesaving and life sustaining benefits. As resources will be limited on the local level during the first few hours of a disaster or emergency event, the Rapid Needs Assessment should allow for the effective use of scarce resources to include prioritization of those resources. Likewise, it will allow local officials to request those resources that are not available locally and are needed to support life sustaining and life saving measures.

Target Audience: The target audience for this course is government officials, emergency management personnel and emergency response officials who will perform a Rapid Needs Assessment within the first few hours after an emergency to provide a response designed to save lives and support life sustaining actions.

Pre-requisite: None

Special Notice

Anyone with emergency management responsibilities, including planning, response, mitigation and or recovery from emergencies is required to be NIMS compliant. All public agencies, including schools, medical and other government organizations that have any role in emergency management need to meet or exceed all NIMS requirements. By attending the courses offered here in Stanislaus County, you will avoid the high registration cost associated with other training (generally \$600+) for registration alone. This training will provide you with the necessary skills to respond and be successful in emergency management regardless of your role in our next emergency/disaster response.

To register for courses or to obtain more information regarding course descriptions, prerequisites and recommendations on who should attend each course, go to

<http://www.stanoes.com/training.shtm> and click on REGISTER.
